

# Assigning Digital Work Template

Name:

Grade:

Course:

Subject/Content Area:

**1. What is the learning objective? What instructional tasks have you designed in the past to meet the objective? What choices will students have to demonstrate their learning?**

**2. Is the instructional task worthy of a digital upgrade? Will using digital tools enhance the learning? If so, in what ways?**

**3. Will the digital tools increase or decrease the cognitive rigor of the task? What additional skills might have to be considered in order to engage this upgrade?**

**4. Does the digital upgrade involve collaboration, communication, creative problem solving, and/or creative thinking? How will students engage in these skills?**

**5. Are sufficient digital tools available and do all students have access to them? Brainstorm potential technology access points and digital tools that should be in the students' toolboxes.**

**6. Are the students involved in some of the decision-making? How much are the students contributing to the design, process, or product?**
