

Digital Storytelling:
*Leveraging Engagement
AND Learning*

Mike Fisher - Digigogy.com

Today is the last day that I'm using words.
They've gone out, lost their meaning
Don't function anymore.
How could they explain how I feel?

~Madonna, *Bedtime Story*

The ancient art of storytelling has recently
gained new life through an unlikely partner:
technology. Digital storytelling harnesses the
power of digital tools to allow students and
teachers to tell and archive important stories
in exciting new ways.

Now that students are required to create websites, digital stories and other forms of new media as part of their school work, art is becoming the next literacy, or 4th R. Thanks to our struggle to use multimedia effectively, the language of art is taking center stage.

~Jason Ohler

- Digital storytelling permits students to recapture creativity, develop it and intensify it, apply it, & extend it...
- Digital storytelling provides an authentic personal learning experience- as such; student investment is greatly increased resulting in greatly improved motivation and end product.

In order to upgrade writing instruction, we need to use the tools that will engage the students.
